# A Guide to Services for Individuals Who Are Blind

## WHO WE ARE

The New York State Office of Children and Family Services' Commission for the Blind and Visually Handicapped (CBVH) provides rehabilitation services to residents of New York State who are legally blind. These programs include:

- ◆ Training for Employment
- ◆ Business Enterprise Program
- ◆ Programs for Older Adults
- ◆ Programs for Children

Services are coordinated by counselors and children's consultants located in the regional offices listed on the back of this brochure.

## WHO IS ELIGIBLE?

Any New York State resident who is legally blind may be eligible for services provided by CBVH. Legal blindness is defined as:

- ◆ A visual acuity of 20/200 or less in the better or stronger eye with best correction, or
- ◆ A restricted field of vision of 20 degrees or less in the better or stronger eye.

If you are severely visually impaired but not legally blind, you may qualify for job save services.

If you are unsure if you are legally blind or whether you would qualify for job save services, CBVH can assist you in determining eligibility.

## EMPLOYMENT PROGRAM

A vocational rehabilitation counselor can assist you in obtaining your first job, returning to work, or keeping your present job.

A trained counselor will help to develop an employment plan which can include training and/or education. There will be ongoing opportunities to review and adjust the plan.

Once the goals of the plan are reached, CBVH will assist with job placement.

## INDEPENDENT LIVING PROGRAMS FOR OLDER ADULTS & THOSE NOT SEEKING EMPLOYMENT

Services are also available for those interested in learning skills for independent home management. If you are 55 years or older (or under 55 and not seeking employment), programs are available to teach the skills necessary to maintain independent living. This includes kitchen safety, management of various household tasks, and traveling safely in and around the home. In addition, social concerns can be addressed in order to remain involved with family and friends.

## BUSINESS ENTERPRISE PROGRAM

U.S. citizens who are legally blind may be eligible to operate newsstands, snack bars and cafeterias in government buildings. Management skill training, stock loans and necessary equipment are provided. CBVH also furnishes continuing support services to program participants.

## PROGRAMS FOR CHILDREN

A parent or guardian can apply for services on behalf of a child who is legally blind. Working with the family, a children's consultant helps develop a plan to meet the child's needs. The plan may include services provided in the home, the community and/or rehabilitation agencies. The children's consultant may provide counseling and guidance to the family, advocacy services, service coordination, educational consultation and vocational coordination.
