APPENDIX G-3

III. Reasonable Distance, Very Low Income, Definition of Engaged In Work For Child Care In Lieu of Temporary Assistance, Family Share, Case Closings and Openings, and Fraud and Abuse Control Activities (Required Section)

Reasonable Distance

Your district is required to define reasonable distance based on community standards for determining accessible child care.

The following defines "reasonable distance": **Total of one hour travel time from home to daycare employment.**

Describe any steps/consultations made to arrive at your definition: **Essex County is very rural and large geographically, these were the major contributing factors in defining reasonable distance.**

Very Low Income

Very Low Income is defined by each district and is used in determining priorities for child care benefits.

Very Low Income is defined as **125%** of the State Income Standard.

Family Share

Family share is the weekly amount paid towards the costs of the child care services by the child's parent or caretaker. In establishing family share, your district must select a percentage from 10% to 35% to use in calculating the family share. The family share of child care is calculated by applying the family share percentage against the amount of the family's annual gross income that is in excess of the State Income Standard divided by 52.

Family Share Percentage selected by our district **20%**.

Case Closings (select one or two)

1. The district must describe below how priority is given to federally mandated priorities and describe local priorities. If all NYSCCBG funds are committed, the district will discontinue funding to those families that have lower priorities in order to serve families with higher priorities. Described below is how the district will select cases to be closed in the event that there are insufficient or no funds available.

NOTE: Category 1 cases will be guaranteed child care until programmatically ineligible.

1. If all NYSCCBG funds are committed, our district will discontinue funding to Category 3 families 150% - 200% from the longest duration of child care received to the shortest.
2. If there are insufficient NYSCCBG funds after Category 3 (150% - 200%) cases are closed, our district will close Category 2 cases (100% - 149%) from longest duration of child care received to the shortest.
3. Category 3 – all the rest, including 150% - 200% poverty
4. Category 2 – all the rest, including 100% - 149% poverty
5. Priority populations will close in this order:
 - *teen parent
 - *children with special needs
 - *very low income

2. The district has not established priorities beyond the federally-mandated priorities. If all NYSCCBG funds are committed, case closings for families which are not eligible under a child care guarantee and are not a federally-mandated priority must be based on the length of time in receipt of services. The length of time used to close cases may be based either on the shortest or longest time receiving child care services but must be consistent for all families. The district has chosen to close cases based on:

- shortest time receiving child care services
- longest time receiving child care services

Case Openings

The district must describe below how priority is given to federally mandated priorities and how the district will select cases to be opened in the event that there are insufficient funds available.

Those cases with a lower percentage of state income standards from 100% to 150% of State income standards will be opened first and then will open families who have children with special needs that require day care services. The lowest priority will be families whose income falls between 150% and 200% of the state income standard.

Fraud and Abuse Control Activities

The district must identify below the criteria it will use to determine which child care subsidy applications suggest a higher than acceptable risk for fraudulent or erroneous child care subsidy payment and procedures for referring such applications to the district's front end detection system.

Essex County requires financial verification monthly prior to paying providers day care. Any case appearing to have questionable or erroneous information is referred to the fraud department. Specifically, working off the books, self employed without adequate business records, client unsure of own address, identity verification is suspect, documentation is inconsistent with the application, or with prior case, children under 6 six no birth certificate or provider lives in the same household as the parent.

The district must describe below its sampling methodology used to determine which cases it will seek verification of an applicant or recipient's continued need for child care including, as applicable, verification of participation in employment, education or other required activities.

Continued need for child care is verified in every case at 6 months. Recertification is done on a 6 month cycle. 87 of 87 cases are sampled every 6 months. Every Case is reviewed monthly for income prior to payment being made.

The district must describe below its sampling methodology used to determine which child care providers of subsidized child care services they will review for the purpose of comparing the child care providers attendance forms for children receiving subsidized child care services and any child and adult care food program inspection forms to verify that child care was actually provided on the days listed on the attendance forms.

Essex County Department of Social Services workers collaborate with Adirondack Community Action Programs (ACAP) which is the agency in our county to administer CACFP Nutrition Program Funding. Attendance records are submitted monthly to ACAP for the purpose of cross referencing attendance records with CACFP provider claims. Therefore 34 of 34 non day care center providers are reviewed annually.

APPENDIX G-4

Transportation

Describe below under what circumstances and limitations if any your district will use to reimburse for transportation, what type of transportation will be reimbursed (public vs. private), and how much your district will pay (per mile or trip). Note if paying for transportation, Appendix F will need to reflect this choice.

Differential Payment Rates

Indicate below the percentage above the market rate your district has chosen.

Accredited Programs may receive a differential payment up to _____ % above market rate.

Care during non-traditional hours may be paid up to _____ % above market rate.

Limitations to the above differentials are as follows:

Payments may not exceed 15% above market rate. However, if your district wishes to establish a payment rate that is in excess of 15% above the applicable market rate must describe below why the 15% maximum is insufficient to provide access within the district to accredited programs and/or care provided during non-traditional hours.

Enhanced Market Rate For Legally-Exempt Family and In-Home Child Care Providers

If a district elects to establish a payment rate that is in excess of the enhanced market rate for legally- exempt family and in-home child care providers who have annually completed 10 or more hours of training and the training has been verified by the legally-exempt care giver enrollment agency. The district must state the percentage above the market rate it proposes to use.

Our district is requesting to increase the legally-exempt enhanced market rate up to _____ percent of the applicable registered family day care market rate. Market rate may not exceed 75 percent (75%) of the child care market rates established for registered family day care.

A district that selects the option to increase the legally-exempt enhanced market rate must select one of the options listed below for implementation of the legally-exempt enhanced market rate:

for all legally-exempt family and in-home child care providers that have been approved by the applicable legally-exempt caregiver enrollment agency; or

for those legally-exempt family and in-home child care providers who were receiving the enhanced rate on the date of the regulations, but only for the remainder of their current one-year enrollment period; or

for those legally-exempt family and in-home child care providers who were receiving the enhanced rate on the date of the regulations, for the remainder of the time they remain enrolled and continue to meet the ten-hour annual training requirement.

- on a short term basis
 the caretaker's approved activity necessitates care 25 hours on a limited basis

Describe any limitations for payment of child care services that exceed 24 consecutive hours.

The Child Care Service Unit is the basis upon which a district will determine which household and/or family members should be counted in determining family size and countable family income.

Our district will include the following in the Child Care Services Unit (check which ones apply).

- 18 year old 19 year old 20 year old
